Subject: Re: request for more details of serology testing from COVID-19 Pienter study- for systematic review
Received: Wed 5/13/2020 9:53:54 AM

Many thanks (10)(2e) for such a speedy response.

I am urgently seeking some more detail of the data on the RIVM website (and in some slidesets I have from (10)(2e) (10)(2e), Wellcome Trust) on children – for a rapid systematic review on transmission in children I am undertaking to help inform the UK government.

I would be happy to offer authorship if that were of interest

Would it be possible to get the underlying summary data for the Pienter covid study and for the contact tracing study by age?

Best
Russell
