Onderwerp: FW: Cost-coverage IC-capaciteiten

Dear 5.1.2e

Short uptdate on the cost-coverage-issue: I heard from colleagues in Berlin that the cost-coverage shall be based on a change in the German federal law, that shall be valid until 30th of September. The legislative process is still going on, so we have to wait and see what the outcome will be. They have also not yet decided on how to communicate this to the relevant countries. So also here wait and see.

For the moment: I think it would be helpful at some point to know if any invoices have been sent to NL so far...

Will keep you posted,
5.1.2e

...as an addition: I talked to 5.1.2e This is not fake-news. The costs will be covered by the federal level.

So – in case NL wants to accept this offer, if there are already any invoices the payments should be stopped. 5.1.2e said that they are working on an administrative way to take care of this within Germany. She did not know yet how the offer will be communicated to the countries that are affected (all are EU countries).

5.1.2e is giving a press-conference today at 12.30 – guessing that it will be officially announced there.

Best,
5.1.2e

Beste 5.1.2e

Media in Germany is reporting that the federal government will cover the costs of foreign Covid19-patients in German hospitals. As a sign of solidarity. They are talking about roughly 200 foreign patients who are treated in German hospitals from outside Germany because capacities were not sufficient and costs of about 20 million. They want to stop the invoices until September.

Will get in touch with 5.1.2e in Berlin to informally find out more.

The (not yet fully signed) MoU with NRW has a clause that NL will cover the costs. Do you know if any payments have been made so far for patients from NL?

Groet,

5.1.2e
