ROK gov policy COVID-19.docx

Dear (10)(2e),

I made a list of more detailed support programs for business in Korea. I think big plan has not changed from my last report (although a lot of things were said/promised during the election campaign) so I focused more on practical details for Korean business.

Best regards,

(10)(2e)

Subject: Documents to reference for the Bericht

Dear (10)(2e),

Please find the 3 attached file as a reference for the further work on our new Bericht.

- 1) Korea economic plan for COVID-19 (25 March) was about economic measures by Korean government bodies. There should be more update and
- 2) Exit Strategy of South Korea (13 April) was newly drafted report about the next move of Korean government on balancing quarantine and economic/normal activities. More news will be probably reported by end of this week.
- 3) Berichtenverkeer ZuidKore COVID-19 (18 February) is a report about Korean economy impacted by mainly outbreak in China. But it does have some forecast by different industries.

I will try to find new (more detailed) programs to support business in Korea by the Thursday morning and I talked to (10)(2e) and she can look for institutional forecasts/analysis on Korean economy also by the Thursday morning to share it with you.

Best regards,

(10)(2e)
