Dear (10)(2e)

How are you doing? I think you once told us that NFIA has some contacts with (10)(1c) which produces coronavirus testkits. The company now received US FDA approval for its PCR testkit: (10)(1c)

Could you check if the company can provide testkit to the Netherlands? We have some questions as followings:

- Can (10)(1c) provide volume required: 15K – 70K/week?
- Lysis extraction, isolation kit included? What instruments does it work with?
- What PCR instrument does your teskit work with?

Please let us know if you can reach them and ask the questions for us. We can also contact them if you introduce them to us.

Thank you in advance.

Best regards,

(10)(2e)
