Yes, we are preparing the offers.

KLM is flying Wednesday night/Thursday morning directly to Amsterdam..

Korea is prohibiting the export of protective wear (insulation jacket) and masks, so we are supplying them from China & Vietnam.

Firstly please let me know the quantities for masks.

Can you not make a proposal say for 2 million masks? Just to get discussion started. But at the moment priority is with the other items (insulation jackets, surgical gowns and protective eyewear)

Thank you for your help!
