Beste 10.2.e,

Naar aanleiding van ons gesprek zojuist en voor contact met Reifenshauser stuur ik je bijgaand de offerte zoals we die eerder deelden. 10.2.e is volgens onze informatie 10.2.e . Daarmee hebben we nog geen direct contact gehad. 10.2.e heeft contact met 10.2.e , 10.2.e , die gisteren aangaf dat de machine in januari zou kunnen worden geleverd (dit is gegaan van augustus naar februari en nu dus januari). Voeg nog een maand of twee toe voor turn key en we kijken daar draaien in april 2021. Dat is echt erg laat en we zouden voor Nederland, zorg en andere vitale sectoren, echt enorm gebaat zijn bij mbPP productie op eigen grond dit jaar, dus levering in augustus/sept.

Ondertussen werken we door aan Taiwan en dat is een kwestie van uren/dagen om daar de laatste informatie te krijgen, maar met een aantal veel onoverzichtelijke risico's die we moeten nemen, Reifenshauser blijft de geprefereerde optie, net over de grens, turn key, en ook omdat zij de Innovatec machines maken en we dat materiaal inmiddels goed kennen.

Houd me graag op de hoogte
Dank voor jullie inspanning!

Hi 10.2.e, 10.2.e,
Please find enclosed the offer of one machine. Pushed for August but this still needs to be negotiated ...close to sign the contract. Looking forward to the info from Taiwan.

Best,
10.2.e

Dear 10.2.e,

Please find attached our quotation and layout. The surcharge for full erection is 250.000 EUR. I understand but the delivery time needs to be verified by order. At time it is quite worse, because of all this planned projects. If there are changes we can ship earlier, but at time our production planning is full. So lets check, when we are close to sign a contract.

Best regards

10.2.e
