It is with the usual password but anyone is welcome to text me on the mobile

Please see the draft of the deck we intend to send to 10.2.e this Sunday evening in advance of our call on Monday seeking their feedback in advance of the final draft. It is with the usual password but anyone is welcome to text me on the mobile number below if it is required again. We would appreciate if you would have a quick look to make sure you are comfortable with us sharing all of its contents. We will be making some small adjustments tomorrow along with a final review but what you see attached is likely not to be edited further unless you instruct otherwise.

This 'summary deck' has much of the detail and commentary removed but we think it addresses the key facts and findings including major areas of concern. If you are happy with the structure, it will also form the basis of the executive summary that we intend to deliver with the full deck later this week.

Please be aware that there are a still elements that we are finalising - we will seek in the coming day to address a few remaining loose ends (10.2.4 indicated a desire for more details on Network as an example).

If we do not hear anything by Sunday eve we will assume all is in order. Of course if there is anything to discuss, I can be reached on Sunday as required.

All the best - 10.2.e
