

- Nederland is voorstander van additionaliteit van de investeringen en hervormingen die als gevolg van RRF worden gedaan. Zonder deze voorwaarde verwordt RRF tot een soort begrotingssteun, terwijl lidstaten juist nog prima in staat zijn om op kapitaalmarkten middelen te lenen. Investeringen die al volledig vanuit nationale middelen worden gefinancierd of al zijn geïmplementeerd, dienen daarom te worden uitgesloten van investeringsplannen. Hervormingen dienen nieuw te zijn zodat het RRF werkelijk een prikkel vormt; al voorgenomen hervormingsplannen zijn onvoldoende om voor middelen in aanmerking te komen.
- Nederland erkent de spanning tussen snelle financiering in 2021 en het aanzetten tot ambitieuze hervormingen en investeringen, maar trekt hieruit de conclusie dat hervormings- en investeringsplannen snel en met voorrang dienen te worden opgesteld. NL wijst erop dat de uitdagingen op gebied van hervormingen en lidstaten in de lidstaten al langer bekend zijn.

Toelichting

- De omschrijving van de reikwijdte van de investeringen is zeer breed. Artikel 3 (Scope) zegt hierover:
 "The scope of application of the Recovery and Resilience Facility established by this Regulation shall refer to policy areas related to economic, social and territorial cohesion, the green and digital transitions, health, competitiveness, resilience, productivity, education and skills, research and innovation, smart, sustainable and inclusive growth, jobs and investment, and the stability of the financial systems."
- Voor ondersteuning van banken zijn reeds instrumenten beschikbaar, waaronder resolutie en in uiterste gevallen preventieve herkapitalisatie, of andere instrumenten die de SRB uit het SRF kan benutten. De passage "and the stability of the financial systems" zou kunnen betekenen dat overheden met "zachte" leningen (met weinig voorwaarden) of zelfs giften een preventieve herkapitalisatie kunnen uitvoeren. Dat lijkt onwenselijk omdat daarmee een backstop, die juist bedoeld is als publieke achtervang voor als het SRF uitgeput is, via de achterdeur wordt geregeld. Echter zonder de voorwaarden zoals door het kabinet gesteld zijn bij de ESM als backstop (voldoende risicoreductie) en zonder de voorwaarden die gelden i.g.v. gebruik (8% bail-in en private risicodeling via het SRF). Overigens beslaat de term financial system ook verzekeraars en bijv. CCP's. Dit is echter geen reden om deze passage erin te laten staan.

Krachtenveld

- In FiCo van 1 juli bleek dat grote meerderheid van LS er voorstander van is om de maatregelen die al genomen zijn of die in voorbereiding zijn voor de begroting van volgend jaar ook te financieren uit RRF. Alleen 10.2.a hangen tegen.
- Meerderheid van LS ziet RRF als instrument om publieke investeringen op niveau te houden, hervormingen komen op het tweede plan en zijn alleen relevant voor zover ze dienstbaar zijn aan investeringen.
- De Nederlandse wens om eisen ten aanzien van de investerings- en hervormingsplannen (en hun implementatie) te splitsen, heeft geen navolging gekregen in de written comments van andere LS. 10.2.a heeft deze splitsing wel gesteund in de FiCo van 1 juli.
- In hun written comments leggen 10.2.a en NL de link met het SGP: plannen dienen ook bij te dragen aan de houdbaarheid van overheidsfinanciën op middellange termijn.
- 10.2.a pleit voor het schrappen van de passage "and the stability of the financial systems" in de reikwijdte (artikel 3), maar is 10.2.a steunen dit.

Proposal for a REGULATION establishing a Recovery and Resilience Facility - 2020/0104 (COD)

Deadline: **20 July 2020 17:00 CET**

Commission proposal		Drafting Suggestions	Comments
1.	ANNEX II Assessment guidance for the Facility		
2.	1. Scope		
3.			
4.	The purpose of these assessment guidelines is to serve together with this Regulation as a basis for the Commission to assess - in a transparent and equitable manner - the proposals for recovery and resilience plans put forward by Member States and to determine the financial contribution in conformity with the objectives and any other relevant requirements laid down in this Regulation. These guidelines notably represent the basis for the application of the assessment criteria and the determination of the financial contribution as referred to, respectively, in Articles 16(3) and 17(3).		
5.			
6.	The assessment guidelines are designed to:		
7.			
8.	(a) give further guidance on the assessment process of the proposals for recovery and resilience plans submitted by Member States;		
9.			
10.	(b) provide further details on the assessment criteria and provide for a rating system, to be established with a view to ensuring an		

Proposal for a REGULATION establishing a Recovery and Resilience Facility - 2020/0104 (COD)

Deadline: **20 July 2020 17:00 CET**

11.	equitable and transparent process; and	
12.	(c) define the link between the assessment to be made by the Commission under the assessment criteria and the determination of the financial contribution to be set out in the Commission decision in relation to the recovery and resilience plans selected.	
13.		
14.	The guidelines are a tool to facilitate assessment by the Commission of the proposals for recovery and resilience plans as submitted by Member States, and to ensure that the recovery and resilience plans support reforms and public investment that are relevant and display high added value, while ensuring equal treatment among the Member States.	
15.		
16.	2. Assessment criteria	
17.		
18.	In accordance with Article 16(3), the Commission shall assess the importance and coherence of the recovery and resilience plans, and its contribution to the green and digital transitions, and for that purpose, it shall take into account the following criteria:	<p>The Netherlands does not see coherence of reforms and investment projects as a necessary prerequisite. Reforms and investment projects are both essential and should be judged on their own merits.</p>
19.		

Proposal for a REGULATION establishing a Recovery and Resilience Facility - 2020/0104 (COD)

Deadline: **20 July 2020 17:00 CET**

<p>20. (a) whether the recovery and resilience plan is expected to contribute to effectively address challenges identified in the relevant country-specific recommendations addressed to the Member State concerned or in other relevant documents officially adopted by the Commission in the European Semester;</p>	<p>(a) whether the recovery and resilience plan is expected to contribute to effectively address challenges identified in the relevant country-specific recommendations of the current and previous two years, addressed to the Member State concerned or in other relevant documents officially adopted by the Commission in the European Semester.</p> <p>In order to ensure an effective contribution to challenges in the European Semester, the assessment of the recovery and resilience plans should focus on the CSRs, including the CSRs for 2019.</p> <p>Merely referring to "relevant CSR's" is too vague in this respect.</p> <p>The paragraph should make explicit that addressing CSR's from previous years is a pre-condition. The 2020 CSR's focus on tackling the socio-economic impacts of the pandemic and facilitating the economic recovery.</p> <p>The 2019 CSR's covered reforms that are essential to address medium- to long-term structural challenges, that remain pertinent.</p> <p>The same applies to the reference to "other relevant documents", that blurs a common understanding of what member states have to comply with in their reform plans.</p>
21.	

Proposal for a REGULATION establishing a Recovery and Resilience Facility - 2020/0104 (COD)

Deadline: **20 July 2020 17:00 CET**

		In order to ensure an effective contribution to the digital and green transitions, the assessment of the recovery and resilience plans should be based on separate criteria for these transitions.
22.	whether the plan contains measures that effectively contribute to the green and the digital transitions or to addressing the challenges resulting from them;	(...) (b) whether the plan contains measures that effectively contribute to the green transition and the digital transitions or to addressing the challenges resulting from them.
23.		<p>(new) whether the plan contains measures that effectively contribute to the digital transition or to addressing the challenges resulting from them.</p> <p>(new) whether the plan is in line with the Paris Agreement, the Green Deal (do no harm), National Energy and Climate Plans, Just Transition Plans and the climate and environmental elements of the European Semester will be used to assess the plan.</p>
24.	whether the recovery and resilience plan is expected to have a lasting impact on the Member State concerned;	
25.		
26.		whether the recovery and resilience plan is expected to effectively contribute to strengthen the growth potential, job creation, and economic and social resilience of the Member State, mitigate the economic and social impact of the crisis, and contribute to enhance economic, social and territorial cohesion;
27.		
28.	whether the justification provided by the Member State on the

:::::::
Dear [REDACTED] 10.2.e,

Sorry to intervene. My name is [REDACTED] 10.2.e I am [REDACTED] 10.2.e and [REDACTED] 10.2.e has asked to respond to your e-mail. I think that we are having a misunderstanding on some points.

The NL would like to see 4 amendments to the RRF Regulation:

1. An additional paragraph in the preamble of the RRF Regulation that refers to the European Council Declaration on the emergency brake procedure (para A19).

If I understand well, the following text in your e-mail is meant to cover this request.

(New recital)

Under the Reform and Resilience Facility, the release of funds is contingent upon the successful implementation of reforms and investments set out in the Recovery and Resilience plans to be approved by the Council. Before a decision authorising the disbursement of the financial contributions is adopted by the Commission, the Economic and Financial Committee will discuss and adopt an opinion on the successful completion of milestones and targets under the Recovery and Resilience Plans, for which the Committee shall strive to reach a consensus. If, exceptionally, one or more Member States consider that there are serious deviations from the satisfactory fulfilment of the relevant milestones and targets, they may request the President of the European Council to refer the matter to the next European Council. In such a case, no decision for payment of the financial contribution will be taken until the next European Council has exhaustively discussed the matter. This process shall, as a rule, not take longer than three months after the Commission has asked the Economic and Financial Committee for its opinion.

We consider this text appropriate, but we need a confirmation from our capital.

2. Furthermore, we think, it is necessary to explain in the preamble of the RRF Regulation the additional provisions in the operative part of the RRF Regulation that are mentioned below. Your reply to this request is: "We haven't drafted a text on the preamble/the other recitals yet".

I wonder what you exactly mean by this. Does it mean that you will draft these proposals once we will have finished the additional provisions of the regulation?

3. We request an additional provision in article 19 of the RRF Regulation which clearly stipulates: (i) an advisory role for the EFC in the decision-making process on payments and (ii) an obligation for the EFC to strive for consensus.

In reply to this request you've sent us a proposal for a new article 18a that reads as follows:

Article 18a

Opinion of the Economic and Financial Committee

The Commission shall request the opinion of the Economic and Financial Committee on the satisfactory fulfilment of the relevant milestones and targets by the Member States in the implementation of their recovery and resilience plans, and shall take this opinion into account when adopting a decision in accordance with Article 19(2). The Economic and Financial Committee shall make its best efforts to reach a consensus in its deliberations.

This text proposal is okay to us.

00008

4. We demand an additional provision in article 19 of the RRF Regulation allowing a suspension of the time period for the adoption of a decision on disbursement by the Commission. Such a provision is necessary to give the European Council sufficient time to discuss the matter exhaustively, in the situation that one or more Member States request to refer it to that Council.

10.2.a

10.2.a In our reading of art 19 para 3-5 of the RRF and art. 116 of the Financial Regulation, a time period/deadline for payments does apply. Therefore, we think that we do need an additional provision allowing a suspension of the time period for the adoption of a decision on disbursement by the Commission. Such a provision is necessary to give the European Council sufficient time to discuss the matter exhaustively, in the situation that one or more Member States request to refer it to the European Council. We understand that it's not possible to literally refer to the emergency brake procedure in article 19 of the RRF Regulation, but we do think it's possible to draft a text which makes it possible for the Commission to suspend the time period for the adoption of a decision on disbursement *in case of unforeseen circumstances*.

10.2.a

10.2.a

Therefore we persist in our initial request for adding a provision allowing the fore mentioned suspension.

We look forward to hearing from you.

Kind regards,

10.2.e
