Thank you.

Question is that in light of Corona and shortage in supply of medical protective equipment, the EC has proposed to organize a so called European Joint procurement process for these kind of products.

(11)(1)

We would not know what to buy and in what quantity.

(11)(1)

So far Belgium, Cyprus, Malta, Luxemburg and Spain have shown interest.

We like to know if Germany is considering to join as well, or not.

Good to check with (10)(2e) if she knows if that would be the case.

Best regards,
Roland
