Dear (10)(2e)

(10)(2a)

We have already developed a first draft, and we hope to have it published in around 2 weeks. We are a bit hesitant to share the draft ahead of publication, because there are currently still considerable debates within STIKO and we cannot anticipate if there will be still important changes over the next 2 weeks. But we are happy to inform you as soon as it is available on our webpage.

With kind regards,

(10)(2e)

Betreff: Considerations about priority groups for COVID-19 vaccination

Dear (10)(2e)

For the Dutch Health Council, we are preparing a background document about COVID-19. One of the topics in this document will be NITAG considerations about priority groups for COVID-19 vaccination. As you probably know, the JCVI from the UK and ACIP from the USA already made such an (interim) advice. My question is whether the health council of your country already has such an advice or is planning to make it in the near future, and if so, if you may share your considerations with us.

I hope to hear from you soon.

Kind regards,

(10)(2e) (10)(2e) (10)(2e)
