Dear (10)(2e) and (10)(2e)

Thanks for all your work for this proposal!

Enclosed some comments and yes, I agree with the comments of (10)(2e) and (10)(2e) in the file and in the mails below as well.

Success and best wishes,

(10)(2e)

Dear (10)(2e), (10)(2e) and all,

Thanks for this initiative and all the work you have already done.

I agree very much to the comments below and included some additional comments/suggestions in the file that was edited by (10)(2e)

Best wishes,

(10)(2e)

Onderwerp: RE: IMPACT - next update

Dear (10)(2e) and (10)(2e)

Good start! I've added my comments in the document and completed the information for KOALA.

In short: 1) instead of 'can' and 'if' I would in the first place emphasize what we will actually do; 2) I would emphasize the necessity of monitoring data (app) since this is the justification to do it now and prospectively (and thus for ZOnmw to support it now) and on the individual level; and not later on, in retrospect on the societal level; 3) I would emphasize the strength to do this in going-on cohorts that already have historical data and long term collaborations (e.g. pooled analyses; also internationally); 4) I would broaden case study 1 (impact on health workers) to other groups (e.g. educational personnel, but also students and elderly); and redefine case study 2 to cover etiology and course of SARS-COV-2 infection; since I believe that this will best serve to demonstrate the strengths and justification of individual prospective data collection in historical cohorts mentioned under 2) and 3).

For our METC clearance for KOALA we need to submit a full proposal (paradoxically, because it is not WMO...); therefore everything that can help us to write it up is welcome; including details of the app re. GDPR.

Kind regards,
(10)(2e)
