Vraag/onderwerp/thema

Sustainability

What are the consequences of this crisis for International mobility and migration?

Under-detection of COVID-19 infection and migration of vulnerable health-impaired migrants pose a risk to management Central Mediterranean region. Due to war and difficult conditions, including lock-down, little information is available abou infections and displacements. This undermines the control of COVID-19. It poses a risk to migrant health and spread to Eu destination region. Open real-time data on (suspected) incidence of COVID-19 infection among migrants, and their moven

What Does COVID19 Mean for Vulnerable Groups, Including Stateless Persons?

To what extent may human rights be restricted?

Will globalization be more strictly regulated?

Reducing the chance of a virus or bacterium leaping from an animal to humans, thereby reducing the number of zoonoses expected to only increase in the coming years - better protection of nature, stricter approach to catching / hunting / poacl wildlife trafficking, and reducing the number of potential hosts for a virus or bacterial infection by radically reducing livest increasing the distance between places where animals are kept and where people live.

Are we moving more towards a circular economy?

Is it time to reshore production of certain articles such as medicines?

Are governments investing in unsustainable organizations to emerge after the crisis (oil, gas companies) just like with othe they investing in sustainability initiatives?

Does COVID19 influence people's travel (flight) behavior?

How the Coronavirus influences garment workers in supply chains

Disrupted food chains

Coping & Resilience

"Young people
Social isolation / Loneliness
Finding / keeping work
Risk perception
Crime "

"*Family*
Working remotely
Financial problems / Poverty
Dealing with conflicts
Consequences for pregnancy
More inequality due to home education "
