[I MOVE COVID 19 Consortium Agreement v8May2020 Page1to27.pdf](#)
[I MOVE COVID 19 Consortium Agreement v8May2020 Signature pages.docx](#)

Dear All,

First of all, we thank you for the fruitful comments and suggestions received on the consortium agreement.

You will find attached:

- the latest version of the Consortium Agreement (pdf version from page 1 to 27)

- and the signature section and the attachments to be filled, dated and signed by each partner. They must be returned to us signed **before 29 May** (by email). As soon as we have merged all your documents, we will send you the version signed by all of the partners.

We have summarised all the remarks taking into account the objectives, specificities and expected results of our project.

As you know, this Consortium agreement is based on the model proposed by the Commission (DESCA2020_v1.2.4_October_2017) and the previous contract agreement signed for I-MOVE+ (Consortium in

which most of you participated).

As you may know, a first amendment to our Grant Agreement is already underway to include two new partners (we are 22 in total):

- Vrije Universiteit Brussel (university hospital), Belgium
- Inserm for 5 University hospitals (Cochin, Bichat, CHU de Lyon, CHU de Rennes, CHU de Montpellier), France

These two new partners will be integrated as from the date of signature of amendment no 1 with an additional budget corresponding to their participation in the project.

Should you have any further questions please do not hesitate to contact us.

Best wishes,

5.1.2e

Dear All,

We are pleased to send attached the "Consortium Agreement" (CA) that we are requested to all sign before 2 of May.

This document is the document provided by H2020, Desca model in its latest version (Version 1.2.4, October 2017) and integrating the options chosen for the previous I-MOVE+ project.

The CA represents a real challenge for a consortium of 20 partners.
Please review it and suggest only changes that you believe are absolutely necessary (we believe that we

should not argue upon the wording proposed by H2020, but only drop some aspects that do not apply to the studies that we will be carrying out).

We thank you to send us our comments or validation on the document before the 22 April 2020.

We will summarize all comments received and give you a feed-back on the week following the deadline.

For your information, we have received the attached document from the commission " Guidelines for open access to publications, data and other research outputs, for projects working on the 2019 coronavirus disease (COVID-19), the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), and related topics".

We also thank you for signing the accession form to the Grant Agreement available online on the Participant portal.

Should you have questions or comments please let us know.

Best wishes,

--
