Subject: Antw: Proposition of agenda for the joint PMC-POC meeting in Berlin, 13 October 2020

Received: Thur 5/14/2020 10:21:09 AM

Dear (10)(2e)

I think these are important topics. For the first ident, I think it will be good to give several JRPs and JIPs the opportunity to present. We might need to find a balance that each partner is actively involved in one of the examples as this will increase interest of PMC and POC members.

As regards the new stakeholders: up to now, I had informed EFSA and ECDC on this meeting, but not the other ones. I assume we should involve the new ones: EEA, EMA, WHO-Europe, FAO but not JPI-AMR and JAMRAI. We may discuss details during the next SC meeting in May, e.g. how to involve them exactly, e.g. who is willing to give a presentation. Is that your suggestion?

Kind regards
 (10)(2e)

 Dear PMT members,

As you recall, we plan to have a joint PMC-POC physical meeting (with possibility to attend through TC) at the Bundesinstitut für Risikobewertung in Berlin on the 13th of October 2020. On Monday 12th the stakeholders committee is scheduled and we want to propose a PMT on Wednesday 14th.

As for the PMC-POC meeting, the coordination team proposes the following agenda:

- The WP5 outcomes inventory as link between the stakeholders' needs and the results of OHEJP; examples of JRP and JIP deliverables that demonstrate the added value for OHEJP: support to surveillance, databases, procedures, etc.
- COVID-19 and OHEJP: the COVID-19 JIP and other actions
- Presentation of the new OHEJP stakeholders
- The enlargement procedure
- Sustainability and Partnership
- Other?

The agenda should be attractive for both PMC and POC members. If you have any remark or suggestion, please let us know. We will put this also on the agenda of the June PMT TC (date still to be fixed).

Kind regards and keep safe!
