Onderwerp: RE: GHSA Steering Group Meeting Day 2

Dear all,

Hereby, I send you the [link](#) for the presentations used during GHSA SG Meeting Day 1 and 2 and the insights of the chat function of Day 1 and Day 2 in order to be fully able to evaluate the recommendations and pick the actions that you are willing and eager to pick up, referring to this segment in the email below, sent by Mark yesterday:

“Thirdly, and finally, as the Steering Group should lead by exam

ple, we again urge all participants to carefully evaluate the recommendations from the presentation of last week, and pick the actions that you are willing and eager to take up. Several of the Steering Group member countries have indicated that they are keen in taking up a (more) active role, and we would welcome self-nominations on what these should be. Importantly, we will also try to roll-call all member countries for their specific commitments, in order for transparency on the leading by example. **This is a call to everyone to make explicit what your country does to contribute to the GHSA Objectives**, so our communication and outreach efforts are clear and manifold. Please send your country efforts in ‘leading by example’ to us by email, so we could include these in the next Video Calls.”

We are pleased with the high numbers joining the calls, and the efforts in terms of contributions to these meetings. Now it is time to secure these good spirits by sharing short- and long-term commitments. As OIE said perfectly: strike when the iron is hot, especially within this window of the attention given to world health security due to COVID-19.

We look forward to your lead by example proposals and are looking forward to the roll call to formalize these commitments.

Firstly, you have all received the GHSA Steering Group Statement. Since this item will re-appear on the SG Agenda next week, please double check, as we will roll-call on your support for the statement, in order for it to proceed.

Secondly, we've noticed that as a group we've made more use of the web-ex chat function. This is really good, as it ensures that we capture your interventions and questions literally, which is a huge relief for the rapporteurs. Please continue to do so!

Thirdly, and finally, as the Steering Group should lead by example, we again urge all participants to carefully evaluate the recommendations from the presentation of last week, and pick the actions that you are willing and eager to take up. Several of the Steering Group member countries have indicated that they are keen in taking up a (more) active role, and we would welcome self-nominations on what these should be. Importantly, we will also try to roll-call all member countries for their specific commitments, in order for transparency on the leading by example. **This is a call to everyone to make explicit what your country does to contribute to the GHSA Objectives**, so our communication and outreach efforts are clear and manifold. Please send your country efforts in 'leading by example' to us by email, so we could include these in the next Video Calls.

We look forward to hosting another webex meeting with you all on Tuesday May 19th.

Warm regards from the Netherlands
On behalf of the Dutch GHSA team

Ps. As per the Indonesian suggestion, we have made a GHSA videostatement for the WHA, and we hope to be able to share this with you shortly.
