[COVID-19 and irrigation of crops_04082020_RIVM.pdf](#)

Dear (10)(2e)

Some time ago (10)(2e) offered that we could translate the national advice we drafted about irrigation of crops in relation to the SARS-CoV-2 virus. In the attached file you can find our translation. It also includes a section with background information about the virus, which was part of the original Dutch advice. We translated this section as well, however, we did not update it.

Kind regards,

(10)(2e)
