Ha (10)(2e) [redacted]

Is dit ook iets om toe te voegen aan de richtlijn? Aangezien we daar ook iets zeggen over die BCG vaccinatie?

Groet,

(10)(2e) [redacted]

The diagram illustrates a hierarchical structure of nodes, each labeled with the expression $(10)(2e)$. The nodes are arranged in several levels, connected by lines. The top level consists of a single black node. The second level has two nodes: a blue one on the left and a red one on the right. The third level contains four nodes: blue, red, blue, and red from left to right. The fourth level has two nodes: a blue one on the left and a red one on the right. The fifth level has a single black node at the bottom. The diagram is a complex network of nodes and connections, representing a hierarchical structure.
