Medical advice regarding COVID-19 or novel coronavirus

Do you have a fever and

are you short of breath or coughing

within 14 days after arrival

**Dutch residents: stay at home and call your GP for advice;
mention your stay abroad**

**Foreigners: stay in your room and call for medical advice;
mention your stay abroad**

*Did you develop a fever during the flight and are you short of breath or coughing?
Visit Airport Medical Services/first aid at Schiphol airport.*

What is COVID-19?

An outbreak of COVID-19 (also known as novel coronavirus) is currently ongoing in several countries. The virus can cause symptoms such as a fever, cough, and shortness of breath. In a limited number of cases it has led to more severe infections, even death.

How does the virus spread?

You can get the infection through close contact with a person who has symptoms from the virus (mostly cough).
