Dear Dr. (10)(2e)

October 6 at 11:00 AM EST, I am hosting a free 30-minute webinar on Caring for Pediatric COVID-19 Patients. The webinar will feature a panel of 3 experts who will each share a unique perspective on the challenges of diagnosing and treating Pediatric COVID-19 patients. There will also be an update on COVID-19 vaccine development which should be interesting to those in all medical specialties.

Would you like me to share the link to access the webinar when it is available?

Best Regards,

(10)(2e)
