**Onderwerp:** European COVID-19 vaccine trial network

Dear colleague,

The EU is seeking to establish a pan-European site network for upcoming COVID-19 vaccine trials of all phases, including postmarketing. National network building efforts are already under way in several member states, notably (10)(2a) and (10)(2a) (10)(2a) commissioned the German Center for Infection Research (DZIF) to pool these efforts and perform capacity mapping of EU clinical trial sites for COVID-19 vaccine studies. This will be approached in close collaboration with national network coordinators.

As a first step, we are compiling a list of interested clinical trial sites and affiliated networks, followed by developing a site capability questionnaire and a linked database.

If you are interested in joining this trans-national vaccine platform, please let us know until **Wednesday, 16<sup>th</sup> September 2020**.

We would also appreciate your suggestions for further potential sites and/or points of contact for vaccine networks in your country.

With best regards,

(10)(2e)
