Conditie van toepassing op deze order:

The parties are aware of and agree with that the goods on this special order items contract are bought in a volatile market, which because of the current and worldwide Corona situation is a rapidly developing market, including changes in available quantities, prices etc.

This means that there may be discrepancies in the quantities on the orders. Abena is not responsible towards the customer concerning quantity and security of the supply. If Abena is unable to deliver the goods in whole or in parts under this agreement, no claims can be raised, neither direct or indirect claims can be made.

The price is agreed to the fixed price, but price adjustments may occur in connection with raw material or exchange rate changes, changes in shipping prices can occur, in relation to delivery barriers or other external changes such as tax changes.

The customer is obliged to buy the agreed quantity from Abena, but not eligible to purchase quantities besides what is agreed upon, unless a separate agreement is entered regarding this.

Abena thus makes reservations for unforeseen delivery barriers. Abena reserves the right to cancel or suspend the order if Abena or its subcontractors are to be prevented from fulfilling the contract as a result of a government intervention or other matters caused by the current COVID-19 pandemic. The parties agree that none of the parties may make any claim against the other part should this clause be activated.

The contract only covers the purchase of this item.

Abena guarantees that the product has a quality that makes it suitable for the intended use in Europe and applicable hygiene and safety standards and is fulfilling the specifications as communicated. If this is not the case, the Customer can in principle cancel the order. If the product has a quality that makes it suitable for other use by the Customer, the order cannot be canceled. In that case, instead, a proportionate refusal is agreed on the basis of the estimated difference in the price level of products intended for the originally intended use, and products intended for the use for which the purchased products due to the lower quality must instead be used. Hereafter the Customer does not have any authority to claim breach of contract regarding the quality and / or design of the product and thus does not have the right to claim any additional rights and cannot return goods in other cases than by canceling the order in the circumstances mentioned above. If the customer has ordered larger quantities than can be used, the customer himself carries the risk.

The contract is independent from all other contractual obligations the customer and Abena may have.

Terms of payment: 50% prepayment.
