Onderwerp: [Spam] SV: Feedback on WP6 task revisions before 25 SEPTEMBER 2020

Dear [REDACTED]

Thank you for following up! I had asked three questions the meeting last week:

- a) The status of the literature review, is this something that could be shared with the partners?
- b) Related to 6.2.2. - The pilot test gathering input on multi-sectoral collaboration from Dutch citizens and the benefits of this work for the SHARP partners?
- c) If "learnings" are going to be assessed in 6.2.1/6.2.4, would this coincide with the feasibility study of Task 5.3 of using information After Action Reviews and SimEx for better preparedness.

Related to point (c) this Task 5.3 there is a group already in place with RIVM, WHO and FHI in Norway.

I can arrange a meeting with Task 5.3 group to specifically discuss the changes for 6.2.1/6.2.4.

Best regards,

Dear 5.1.2e

Last week during steeringcie you mentioned the need/wish to discuss the protocols for tasks 6.2.1. and 6.2.2. In addition you mentioned the need to discuss after action reviews on our activities as I recall.

I think it is most practical to have a TC to discuss. Do you have any suggestion for a date/time?

Kind regards
