Hi (10)(2e)

I have not been in touch with you for a while, how have you been?  
I heard that you are quite busy, but hope you and your family are doing well.

Regarding our human challenge paper – I prepared the manuscript for submission, as attached.  
I would like to forward this manuscript to (10)(2e) as well, because we worked on norovirus study together previously.  
Would that be okay for both of you?

Regarding the travel schedule – the university that I am affiliated with has banned any international travel, but now I am applying for a "special case business travel" and waiting for the response. (I am trying to convince the administrative office, arguing that COVID work is essential and urgent...)  
If this application fails, I will not be able to go back to the Netherlands probably for another half-year, but I will let you know the result as soon as possible (the reply is planned on 24 July).

Best regards

(10)(2e)
