**Onderwerp:** Re: COVID-19, cancer and vaccination: UPDATE and AGENDA

Dear all,

We are looking forward to our next VOICE meeting Monday the 19<sup>th</sup> at 9 pm.

- There is a draft logo (although it may not appear in the box), acronym and an oplegger in our mutual box,
- There is also a file to include your expertise; if you did not yet add your own expertise, please do so.
- Moreover, you will find relevant information, including the draft protocol.
  - Happy to see that first input of the pulmonologist arrived, this is eagerly awaited, it will also influence the choice for 4 or 5 cohorts.
  
- Logistics: We made the first attempt with a few of us to think about logistics: ~ 1000 patients, ~ 330 per center, likely twice a vaccination and blood sampling before and after 7 and 21 days after the last vaccination
  - It may help to already identify potentials, inform them in advance with a letter, ask for informed consent
  - There will be questionnaires also for adverse events, can this be online, which patients will have to be called (not able to do it online). Rapid information is here critical!
  - The limiting step per center for the number of patients vaccinated per day will probably be the number of PBMCs that can be isolated on a day.
  - Vaccination late afternoon early evening, in the evening serum isolation, next morning PBMC isolation?
- There is a draft for aspects to be included in the budget, please have a look and give your feedback.

#### Agenda

- Clinical trial protocol comments/suggestions
- Missing expertise in the team?
  - Health economy
  - Pharmacy
- Logistics
- Budget
- What will we do to guarantee that we can be very **fast** in doing the vaccination, the measurements and lab analyses, and data analyses?.
  - How to put already things in place for data management, writing scripts etc
  
- With whom to talk about VOICE
  - NFU (10)(2e)
  - Feedback (10)(2e)
  - Others, who is contacting who
  - Money for the plan

best regards
