

Dear (10)(2e),

To me it looks strange also to omit research on SARS-CoV2 in foods. Perhaps there will be an opportunity in future to connect to such work.

Cheers

Dear (10)(2e)

thank you for the updated research plan.
Too bad the part on food was eventually removed

(10)(2a)

Best regards

Dear (10)(2e)

thanks a lot for sharing.

Indeed, thus is consistent with Tasks 3.4, 4.2 and 4.3.

In my opinion, this small addition is also consistent with a general path toward long-term sustainability of OHEJP.

Of course, provided that this addition would not unduly stress the reviewers...

Best,

(10)(2e)
