Hoi [5.1.2e]

Ik ben nu alleen betrokken bij het analyseren van de indicatoren die we hebben bedacht om het BCO te monitoren. Daar komt de eerste data nu van binnen via link met HP-Zone.
Wat betreft de app gaat het denk ik meer over analyse van data uit een eventuele app om deze te kunnen kalibreren, en om te zien wat de toegevoegde waarde is ervan. Ik zal [5.1.2e] zeggen dat ik daar wel over kan meedenken. Maar hoe dat zich verhoudt tot modeleren weet ik niet.

Groet,
[5.1.2e]

Zie hieronder.
Ik doe uiteindelijk niets op het gebied van modellering van contact trace apps, en heb het aardig druk op dit moment met de nasleep van afgelopen weekend.
Is er iemand anders die dit interessant vindt?

Groet,
[5.1.2e]

Beste [5.1.2e] en [5.1.2e]

Zie onderstaande vraag vanuit VWS mbt de notificatie app.

Hebben jullie tijd/interesse om deel te nemen?
Modellering wordt expliciet genoemd, dus als [5.1.2e] niet kan, dan graag een voorstel voor een andere EPI collega met modelleringsexpertise.

Groet,
[5.1.2e]

Ha [5.1.2e]

Vanuit de [5.1.2a] is er een aanbod om de corona app ontwikkelingen en de wetenschappelijke validiteitsstudies en modellering eens met elkaar uit te wisselen. Zijn er vanuit het RIVM collega's die daar aan zouden willen deelnemen?

Hello ▇ 5.1.2e ▇

Thanks again for the invitation to engage further on the topics of modeling and scientific validation. I have identified the POCs from our Modeling Task Force and the International Task Force's epi team who would be willing to participate. Let me know how this meeting shapes up and what scheduling looks like.

Best,

Hi ▇ 5.1.2e ▇

Thanks for setting up this call last week and for sharing these resources. It's much appreciated. Especially the insight that marketing and promotion of digital solutions is key to adoption and public acceptance, it's something we're putting much emphasis on.

We're in a call with the [5.1.2a] tomorrow and our own tests with the armed forces should start later this week. If you'd like to be part of that exchange, please let me know. Our colleagues at the National Public Health institute are working on modelling and scientific validation. If you have scientists doing similar work in the [5.1.2a] we can establish a valuable link there too.

Could you put me in touch with the [5.1.2a] participants in the call?

Yours, [5.1.2e]

Dear [5.1.2e] [5.1.2e]

Thank you for joining the call today. Here are some resources CDC referenced during the call:

CDC interim guidance on contact tracing https://www.cdc.gov/coronavirus/2019-ncov/downloads/case-investigation-contact-tracing.pdf. It appears on the contact tracing webpage, under the guidance heading.

The preliminary evaluation criteria for contact tracing tools: https://www.cdc.gov/coronavirus/2019-ncov/downloads/php/prelim-eval-criteria-digital-contact-tracing.pdf

I hope the call was informative and useful for you as it was for me. It was very helpful to hear about what the Netherlands is doing.

Thank you.

Dear 5.1.2e 5.1.2e

Please join the call on Friday, May 29 at 11 am EST (5 pm CET) using the following call info: 1-517 5.1.2e nternational; Participant passcode :
5.1.2e

The call will be with the CDC technical staff to talk about the contact tracing approach the US is implementing to address the COVID19 pandemic. I hope you can also talk about the Netherlands' approach to contact tracing and give an update. As you can see from the agenda, we will also have our colleagues from [5.1.2a] (non-government/industry rep) join the call.

Agenda:
1. Introductions (5 mins)
2. CDC: [5.1.2a] approach to contact tracing (10 mins)
3. [5.1.2a] approach to contact tracing (10 mins)
4. The Netherlands' approach to contact tracing (10 mins)
5. Q&A (25 mins)

Regards,
[5.1.2e]

Onderwerp: RE: Request from the Netherlands Ministry of Health, Welfare, and Sport re: COVID-19 Apps

Hi ▬ 5.1.2e ▬

Please find the response from the department: "CDC is not developing contact tracing apps. CDC has a team doing a landscape analysis of available apps, rating them against a set of preliminary criteria that we've developed, and then moving them forward as recommendations for potentially

pilot testing in low incidence jurisdictions."

Cheers,
`5.1.2e`

Subject: Request from the Netherlands Ministry of Health, Welfare, and Sport re: COVID-19 Apps

Hi `5.1.2e` and `5.1.2e`

My colleague, `5.1.2e` (cc'd), is part of the Netherlands' Ministry of Health, Welfare, and Sport and he is interested in learning about the `5.1.2a` fforts for coordination and deployment of apps (e.g., symptom checker, self/home-isolation management and contact tracing apps). And, how the `5.1.2a` is looking at deploying contact tracing apps to ease out of the population movement restrictions, as part of the strategy to contain the spread of the virus. They're interested in what technology stack we are using (GPS, telco location data, Bluetooth proximity, etc.).

Do you have updates we can share with `5.1.2e`

Thanks!
`5.1.2e`
