Onderwerp: FW: EMA speaking points -Informal Meeting of Health Ministers- 2 December

Hi, hebben jullie die sessie scherp?

Groet, (10)(2e)

*We understand there are many concerns by citizens and we need to understand and find ways to address them. To this end we are **organising a public meeting on 11 December** to inform European citizens about the EU regulatory processes for the approval of COVID-19 vaccines and to listen to the concerns and questions from the public.*

We have also committed to extra transparency on the evaluation of COVID-19 treatments and vaccines and, we will be publishing the full public assessment report within 3 days of European Commission decision and the full clinical trials results underpinning the marketing authorisation as soon as possible following the Commission decision after redaction of commercially confidential and personal data.

Following the first authorisations, safety and effectiveness monitoring by the companies but also by EMA, ECDC and national authorities will be critically important. We will use all the tools we have available to monitor the safety of these vaccines in as close to real-time as possible so that we can take swift action, if needed.

Dear Member of the Steering Board,

Please find attached EMA speaking points on the update on COVID-19 vaccines , delivered in the public session of today's informal videoconference of Health Ministers .

Kind regards,
 EC Vaccines team
