Hi,

I agree completely but it is not for me to decide. I'm chasing and pushing... 5.1.2e

Subject: RE: Virus variants and vaccines

Hi 5.1.2e

Would it be a solution to restrict it to work for Janssen and the SARS-COV-2 based on 5.1.1c? I would think it should be more open as it would help general research for bringing forward any SARS-COV-2 research that 5.1.1c is contracted with.

Subject: [EXTERNAL] RE: Virus variants and vaccines

Hi,

Just to let you know that it is back at our lawyers as the virus is used by 5.1.1c for contract research. This means our stock is part of an end product offered by 5.1.1c that is used to offer services against payment. The government has been very strict about this, it can be used for validation/evaluation of vaccines, antivirals and diagnostic tests by the party that the MTA is signed with but not when they do it for third parties against payment. That is where I'm at now. I'm trying to reach out to the lawyer.
 My apologies, this is really out of my hands.

Best 5.1.2e

Subject: RE: Virus variants and vaccines

Dear all,

Good to hear that things are moving and that the MTA is agreed. Hope to see it signed so the virus can be shipped eventually. Please let me know if I can do anything to facilitate further as a contract between RIVM and 5.1.1c and Janssen will only benefit for vaccine testing.
