Subject: RE: Virus variants and vaccines

Dear [REDACTED] 5.1.2e

In that case we only included our institutes name etc. the rest of the MTA is fine with us.
 We only intended the amendments to be a clarification that we are using the Material for the validation of vaccines for our clients.
 But this is clearly stated in the Purpose.

We can sign it as it is.
 Should we sign first or do you want to?

Kind regards,

[REDACTED] 5.1.2e

Dear [REDACTED] 5.1.2e

As indicated the MTA is non-negotiable as we get many request. However changes in the MTA are only possible with going through negotiations with our legal department. This will take time is our experience (up to two months).
 Please let us know if you wish to do so, in which case we will send it thru to them.

Best wishes [REDACTED] 5.1.2e

Subject: RE: Virus variants and vaccines

Dear [REDACTED] 5.1.2e

Please find attached the MTA with a few remarks / kind requests for changing.
 For clarity we have inserted a few words to allow the validation of vaccines for commercial partner
 We hope that these modifications are acceptable and that we can finalize the document at your earliest convenience
 Best regards

Subject: RE: Virus variants and vaccines

Dear 5.1.2e

Thank you for your EVAg order with us. Please find attached the commercial MTA for your review. Please add the missing information in the lines that are highlighted in yellow. Please note that due to the very high number of demands we are currently facing, we cannot accept any substantial changes to the MTA at the moment.

Once you reviewed the MTA, we can send you the final file for signature. After you receive the final file, please print and sign **2 copies** of the MTA and send them both via regular mail to (please note that the **last page requires 2 signatures in blue ink**):

National Institute for Public Health and the Environment (RIVM)

5.1.2e

A. van Leeuwenhoeklaan 9, 3721 MA Bilthoven
The Netherlands

In order to speed up the process, we can prepare the shipping in the meantime, if you send us a scanned version of the file.

Please note that **no parts** of the material that you ordered from RIVM can be integrated **into a (new) endproduct**. The material can only be used for evaluation/validation/or similar purposes.

If you have any questions, please let us know.

Best wishes,

Dear both,
Thank you for the fast response and the effort in this! Yes please cancel both orders and [5.1.2e] from [5.1.1c] will place a new order.
Best

Hi,

To clarify: 5.1.1c should place the new order indicating that they will use the strains for commercial contract research.

Best 5.1.2e

Subject: RE: Virus variants and vaccines

Dear 5.1.2e

I saw the order from 5.1.1c in the system and I was going to contact the person who placed it today. The problem is that the project description does not clearly indicate that the material will be used for commercial contract research, but this changes the type of MTA that will be signed.

In order to speed up the process, we can propose the following to you:

I will cancel all open orders (both the orders from Janssen and the new order from 5.1.1c). You place a new order in the system clearly stating in the project description that the material will be used for commercial contract research. If you place the order today or tomorrow morning, I can send you the MTA tomorrow for review. Please note that due to the very high number of demands we are currently facing, we cannot accept any substantial changes to the MTA at the moment.

Once you send me a scan of a signed MTA copy, we can arrange the shipment early next week or a pick-up at RIVM.

Please let me know how you would like to proceed?

Best wishes,

5.1.2e

Subject: RE: Virus variants and vaccines

Hi 5.1.2e

Unfortunately, I only got hold of the information that the process is stalled again as we wanted to work with 5.1.1c as the service provider for 5.1.1c and an MTA between Janssen and RIVM would not help. 5.1.1c contacted EVAg on the request for virus, but the reaction there was low. I therefore wanted with this email to facilitate the MTA between RIVM and 5.1.1c that

would need to be put in place. Please let me and [5.1.2e] from [5.1.1c] know if this more direct connection for a MTA would work for you.

Best
