Hi [redacted] 5.1.2e

Ik heb de registratie bij EuroQol alvast ingevuld, zie hieronder. Ik heb nog even telefonisch contact gehad met EuroQol: wat ik begrijp is dat REDCap en CastorEDC platformen zijn waarin je je online vragenlijst kunt bouwen. Hun advies was dat wanneer je je eigen vragenlijstsoftware gebruikt, je de reguliere digitale versie aan moet vragen. Dit leek me toch het beste omdat de teststraat studie ook gebruik maakt van FormDesk en we dit programma waarschijnlijk ook gebruiken voor follow-up (FormDesk is inmiddels uitgebreid ook getest en ik weet niet of dat voor de andere systemen geldt). De aanvraag kan dan wel wat langer duren en er zitten mogelijk kosten aan (controle van screenshot) maar dat horen we dan nog. Registratie verplicht overigens tot niets en jij zou sowieso nog even informeren of we met de andere landen kunnen meeliften (formeel niet lijkt me want ik lees dat je voor elk onderzoek weer apart moet registreren....). Ik heb zowel de EQ-5D-3L als EQ-5D-5L versie opgevraagd, dan kunnen we daar nog een keuze in maken. De 5L is misschien beter maar de 3L korter (3L wellicht geschikter voor de teststraatvragenlijst maar 5L beter voor follow-up?). Wordt vervolgd.

Groeten,

[redacted] 5.1.2e
