

Are you still in the Corona crisis team?

Last time we were informed of the Dutch company LiteVax's interest with the rapid test kit developed by Academia Sinica.

We have just been informed that the Taiwan team is now looking for partner to collaborate in COVID-19 test trials by freshly collected specimen from the subjects (because there are insufficient specimen locally....). Do you have direct contact with LiteVax or do you know if any of the research centre / laboratory will be interested in such collaboration?

Best Regards,

Subject: FW: Covid-19 rapid test kit

ia, ea colleagues: see attached for your information and follow-up, if deemed interesting. Not sure whether we as an office have contacts with dutch L&H companies or universities /research institutes.

Best,

**Subject:** Covid-19 rapid test kit

Dear Heads of Missions,

We have received an offer of collaboration concerning potential COVID-19 testing solution licensed technology transfer by Academia. According to Academia Sinica, the test kit provides a rapid immunochromatographic test with high sensitivity. Moreover, the product is easy to operate, convenient and very suitable for the POCT (Point-of-Care Testing) screening. We were asked to help to forward this proposal to potential partners in EU Member States. If any centres/laboratories were interested to collaborate with Formosa Biomedical Technology Corp., they may contact directly with the Formosa Corp.

Best regards,
