Dank je 5.1.2e.

Politiek interessante tijden voor je.....

Dank voor informatie. 17% is wel heel laag.

Ik zie ook dat men vooral vertrouwen heeft in Hongaarse vaccins. Dat wordt lastig.

Tegelijk doet Hongarije wel helemaal mee met de Europese vaccininkoop.

Groet,

5.1.2e

**Onderwerp:** ter info survey on vaccination willingness in HU

according to a representative survey with a sample of 1,231 people conducted by Euronews:

- Only 17% of respondents said they would ask for the inoculation if a COVID-19 vaccine was available.
- 47% said a resounding no to the question if they would want the vaccine.
- 36% said they are still on the fence in this regard.

The survey also revealed which vaccine Hungarians would prefer:

- Most respondents said they would choose one that is manufactured in Hungary.
- Slightly fewer of them said they would want the vaccine developed in the United States.
- However, they clearly reject the Russian vaccine the Hungarian government has already ordered, with only 7% of them saying they would want a Russian shot.
- And only 4% said they would be willing to try the Chinese vaccine.

Comment: In Hungary (and more generally in V4 according to Political Capital research) the anti-vaccer platforms were usually promoting the pro-Russian narrative. Now it seems they are slightly confused about the Russian vaccine Sputnik.
