Subject: Fast-track technical review: updated projections of COVID-19 in the EU/EEA and UK
Received: Wed 11/11/2020 7:15:46 PM
[201111 ECDC COVID forecasts.pdf](#)

Dear colleagues,

ECDC is preparing updated projections of COVID-19 cases and associated morbidity and mortality in the EU/EEA and the UK. As before, we would appreciate your support in a quick technical review, providing comments on the draft report (attached). One reviewer per country is ample. Please note that this document should not be circulated beyond the intended recipients at this stage.

We would welcome any additional information about additional time-series of interest for this work as well as any recent modelling initiatives done at MSs level. We continue to promote exchange of model outputs and information on this topic.

Please let us know of your availability and willingness to participate in the review of this draft ECDC document. We apologise in advance for the short timeline for your feedback, deadline at 08:00 Friday 13/11/2020.

If you kindly accept this task of providing comments on the document and according to ECDC's regulations, you will need to submit a short declaration of interest (DOI) for this specific event or, preferably, an annual form. You may have already completed this. We shall be in contact with you if you have not submitted such a form recently.

Thank you in advance and best wishes,

[REDACTED] [REDACTED], on behalf of the ECDC COVID-19 modelling group
