Hoi [redacted]

Je zou onderstaand antwoord kunnen geven (gekregen van VWS)

In the Netherlands the vaccine distribution among countries is discussed via Covax. The official line is to make no (bilateral) exceptions and to try to arrange everything through the EU. Requests have been received, but they are received by the Ministry of Foreign Affairs. If you wish to talk to our colleagues from Foreign Affairs, please let us know.

Groeten,  
[redacted]

Hi [redacted]

Onderstaande mail komt uit de DG box. Kun jij deze beantwoorden of moet [redacted] dat doen (in dat geval kun jij een voorzet geven).

Groet,  
[redacted]

**Subject:** SARS-CoV-2 vaccines - supporting partner countries

Dear colleagues,

We hope this Email finds you well!

Today, we are turning to you as members of the IANPHI Regional Network Europe, with a question related to SARS-CoV-2 vaccines. On several occasions, the RKI has been approached by partner countries with the request to help with the provision of vaccines, in the context of the Institute's support to countries' COVID-19 response. While we are discussing our options to support our partners, we were wondering whether you have received similar requests and how you responded to them. Following the recommendations of the Global Preparedness Monitoring Board, we would be particularly interested in helping to ensure access to SARS-CoV-2 vaccination for health care workers in partner countries.

Thank you for sharing any information you may have on this issue!

Best regards,
