Hi,

Great. Then we have some time 📌

Best 5.1.2e

Hi 5.1.2e

Thank you for remembering me.

The reason we need the P1 is not for a paper but for trying to be prepared for the most probable future of these variants coming to our door.

The RNA would be needed for a positive control for our P1 dedicated RT-PCR assay to quickly identify travelers returning with this variant.

The isolate is needed for determining the vaccine and COVID-19 recovered efficacy against this and other variants. We perform these experiments in our BSL3 facility.

5.1.2a we think we have a little more time and therefore prefer to wait for the isolate if it is OK by you.

Naturally, in case a paper will be written regarding these studies, you will definitely be a collaborator.

All the best

Dear 5.1.2e

5.1.2a How much RNA would you need to be helped out immediately so you can finish your manuscript? Maybe I can already help you there

Cheers 5.1.2e
