Detailed offer

Date 1 March 2021
Subject Offer for laboratory support for seroepidemiology
studies additional tasks ID 23673

Dear 5.1.2e

Re: Invitation to submit an offer: Laboratory support for seroepidemiology studies additional tasks ID 23673

Thank you for the request for laboratory support for seroepidemiology studies additional tasks. Please find attached our offer for this amendment to the direct contract ECD.11508 .

We propose that RIVM will:

- 1) Provide a central laboratory service for EU/EEA countries to submit SARS-CoV-2 viruses or clinical specimens for antigenic characterisation to detect variant viruses that may not be completely protected against by natural immunity or the current vaccines.
- 2) This service will be offered to all Member States, with a particular focus on countries currently lacking sufficient capacity or capability to perform antigenic virus characterization.

The attached offer has been drafted taking the above mentioned agreements into account.

Yours sincerely,

5.1.2e
