Hi [REDACTED] 5.1.2e

Some perceptive co-authors noticed the following:

- Reference 11 and 15 are authored by the institute "Statistics Netherlands"; the author is now "Netherlands S" as if it were a person (corrected in attachment)
- Co-author Eric RA Vos provided his orcid number (added in attachment)
- The full study setup of the April 2020 and July 2020 surveys are published in two articles (this was not the case yet when the manuscript was accepted); I've added the references as [30] and [31] at the end of the reference list. Maybe it's too late in the editing process, but I'd appreciate it if they could be included.

I can now also confirm that 'all authors have seen and approved this final version for publication in *Eurosurveillance*'

I hope it will be possible to publish today!
