Dear 5.1.2e

Thank you for the information.

Just to clarify, given your statistics, would you ask Pfizer to extend the period of 18/01-31/01, and if so, what would be a reasonable period given your current situation?

Keeping in mind that Pfizer has so far indicated they would not make an exception if the period exceeds the month of January, we will be discussing with them and will keep you updated on this point.

Thank you in advance,

5.1.2e

Subject: RE: BioNTech-Pfizer - Rebate Mechanism

Dear colleagues,

The Netherlands intends to use the rebate mechanism.

On average we are close to six doses per vial.

But it is not standard practice that everybody manages to get that result.

We appreciate efforts from Pfizer to help countries to extract six doses. But we keep finding it incorrect that we have to pay for something that is not a certainty.

Best regards,

5.1.2e

Onderwerp: BioNTech-Pfizer - Rebate Mechanism

Dear Members of the Steering Board,

We took note of your intention to make use of the Rebate Mechanism, could you please confirm this is still the case?

5.1.2a

As for the other Member States could you please confirm that as of 1 February you have been able to extract 6 doses.

Please note that Pfizer has so far indicated they would not make an exception if the period exceeds the month of January. However, we need this information to assess the situation in the Member States.

Best regards,

5.1.2e
