LIVE CAPACITY DATA OF HOSPITALS

5.1.2e

FLATTEN THE CURVE

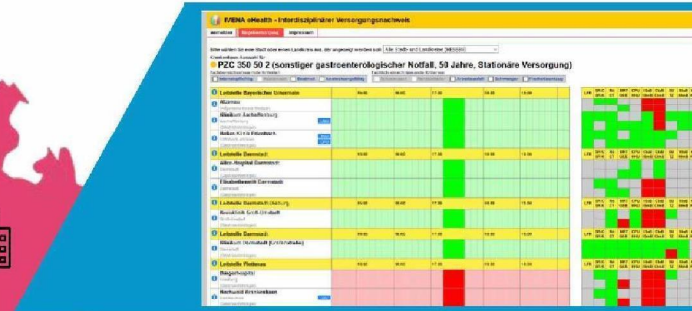

HOSPITAL LIVE CAPACITY

HOSPITAL LIVE CAPACITY

IVENA HESSEN

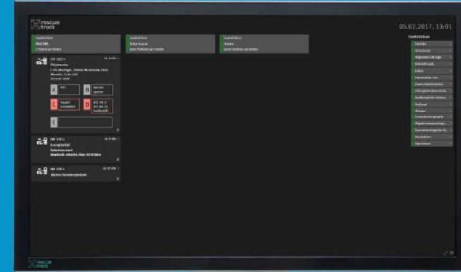

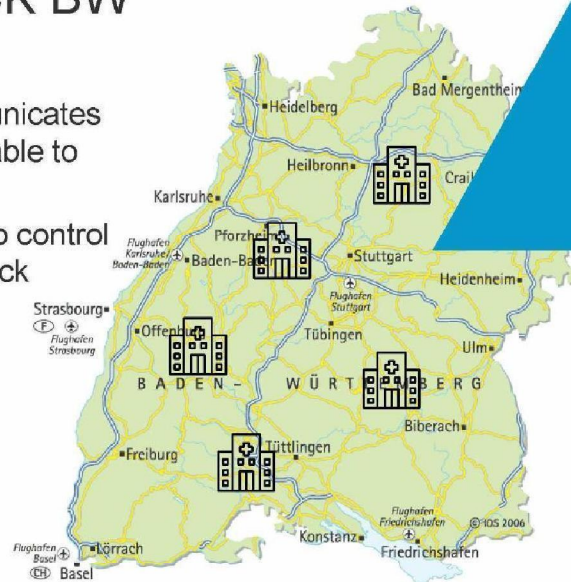

- Every hospital communicates number of beds available to IVENA
- Transparency for doctors about workload within hospitals

HOSPITAL LIVE CAPACITY

RESCUETRACK BW

- Every hospital communicates number of beds available to Rescuetrack
- EMS communicates to control centers via Rescuetrack

HOSPITAL LIVE CAPACITY

MULTIPLE VENDORS

- Every Region by its own
- Many vendors
- No central unit that has ALL capacities and workload within hospitals in germany

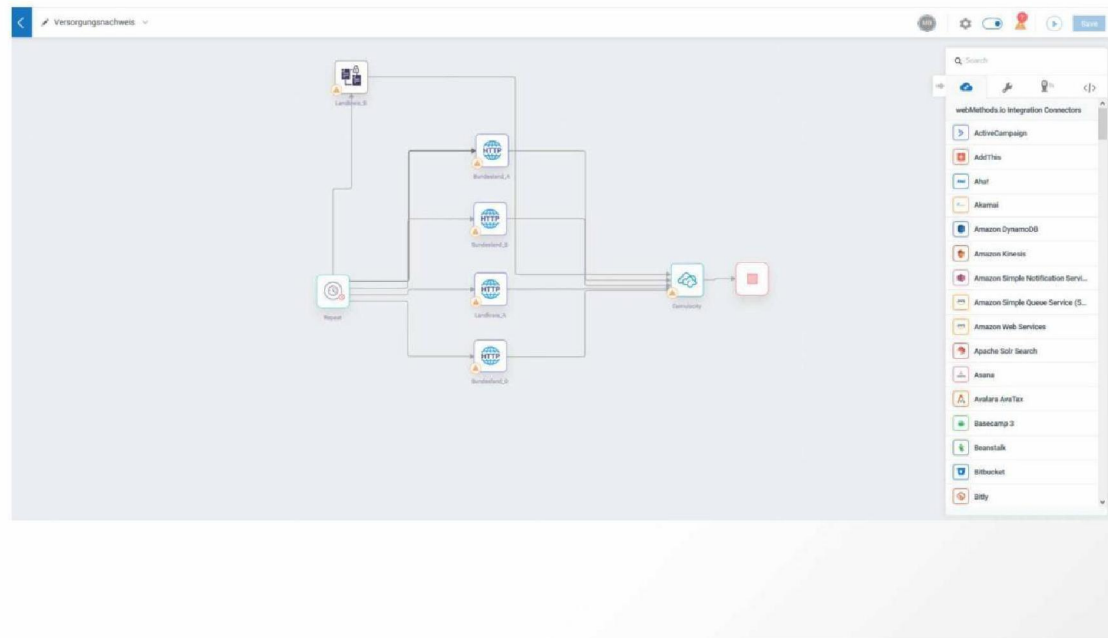

INTEGRATION IS THE KEY

COMBINE ALL VENDORS IN ONE GERMAN CLOUD INSTANCE

WEBMETHODS.IO

- Integrate multiple systems/vendors
- No additional work for hospitals
- No additional work for Paramedics etc.
- Dataaggregation all over Germany
- Live data from already working systems
- Self-service integration
- Integrate every other source

CUMULOCITY

- Real time overview
- Changes in capacities visualized
- Events and Alarming on critical thresholds
- Data Analytics possibilities
- Datamodel allows also capacity of other equipment
