Dear 5.1.2e and Dr. 5.1.2e

I hope I find you both well in these not simple days.

As all of us around the world are experiencing the same challenges and uncertainty these days, we were asked by our Government to reach out to your Government in order to ask for your assistance.

I'm approaching to you as I saw you represented your Capital at the last HC.

Firstly, we would love to ask, if possible, for two contact persons in your Capital: 1. From the Ministry of Finance who is in charge\ dealing with the healthcare system. 2. From the Healthcare system\Ministry who is dealing with budgeting. **This would be a great help for us in case we need to consult\ exchange ideas or questions in this very delicate time for all of us.**

The second question was about the equipping of your country with different medical equipment nowadays.

We would highly appreciate if you or your relevant colleagues could share with us the number of the daily\ weekly equipment (or production..) in total, for the following:

- Gloves-
- Non waterproof robe-
- Waterproof robe-
- Caps-
- Waterproof overall-
- Face shields-
- Three-layer masks-
- N95 masks-

Lastly, we would be grateful if you could share the number of beds assigned for treatment for corona patients, and the number of Doctors in total assigned for this purpose.

Every information would be extremely valuable and helpful for us.

If you need anything at all, information, contact people etc., please don't hesitate to contact me!

I assume the urgency of this matter is understandable.. and again, would be extremely grateful for any information.

**Thank you very very much in advance.**

With kind regards,

5.1.2e
