Onderwerp: Emergency Relief Supply for Holland

Dear sir / madam,

We are currently sourcing for emergency supplies to combat Covid-19 for another European government. We have a supply chain established that includes interfacing with Bureau Veritas to validate and examine the entire procurement process for your needs.

From what I am given to understand, these are the items that you require

- 1) FFP2 masks (What we have is KN95 / GB2626-2006 Certified particulate masks)
- 2) FFP1 masks (single use medical masks non-surgical china standard YY/T0969-2013)
- 3) Surgical masks (EN14683 or china equivalent standard YY0469-2011)
- 4) Glasses
- 5) Aprons (surgery suits?)
- 6) Gloves (Latex, PVC, Nitrile?)
- 7) Disinfectants (Wash free hand sanitizers? Disinfection liquid to wipe down surfaces?)

I am also given to understand that you are planning to send an aircraft on 27 March 2020 to pick up all these items. May I know what type of aircraft so that I can estimate what quantity to propose and also price that is related to the volume of products ordered.

I am at your disposal
