Subject: IPCR activation - NL position

Dear [redacted] 5.1.2e

As requested, I hereby would like to inform you that the Netherlands supports activation of the IPCR in full mode. We expect this to help in supporting the necessary whole-of-government approach towards the coronavirus. However, we stress that IPCR round tables must only be planned when necessary and contributing to a more effective coordination. Unnecessary extra work should always be avoided in times of crisis.

Best regards,
