Dear All

I hope my email finds you all good.

I remind you all that I come in Vienna this morning at 7 am to conclude the Government deal brought from you for the 3M N95 Respirators.

With all the due respect I am bit concerned about what is happening.....

It is now 16.00 Hour and I did not received yet nor the updated purchase letter with the second model of masks nor the name of the person who I should meet from Dutch Government here in Vienna.

We are giving them the chance of rising the prices!!!!

Is obvious that I am concerned about the overall situation also because I cannot keep staying in Vienna with all the city locked with the imminent closure of the international air space that won't allow me to come back in the Netherlands

Please let me know how to proceed another 3 days passed now from our initial meeting and even if I came myself here no payment has been done so I cannot proceed at the official order of the respirators.

The suppliers are overwhelmed of requests and they reserved till today the quantity of respirators as for our deal only for my personal relationship with the Middle East.

If we keep wasting time we won't be able to perform any deal so it is very urgent to receive the updated purchase letter and the relative payment.
