Dear Sir,

We are the official seller of Coronacide TM for Europe.

Coronacide TM is a cutting-edge industrial disinfectant for the Coronavirus. It has built-in slow release technology which means it will keep disinfecting a surface for 28 days.

This means that instead of having to reclean a surface many times a day, you only have to disinfect it once every 28 days. This makes Coronacide TM a highly effective and highly cost-effective disinfectant.

Costs saving calculations below are in gallons: 1 US Gallon is 3,78541178 liter

Cost of using normal disinfectant process:

Reclean a surface 10 times a day, Cost of a gallon of disinfectant is 5.1.1c Labour and application cost is 5.1.1c

Daily disinfectant cost for 28 days is therefore 5.1.1c

Cost of using Coronacide:

Reclean the surface once every 28 days. A gallon of disinfectant is 5.1.2b and labour is 5.1.2b

Disinfectant cost for 28 days is therefore 5.1.2b

This grant you a saving of 5.1.2b every 28 days AND is frees up manpower to disinfect more surface area. For the same money you disinfect more than 13 times as much surface area.

Pricing:

Price for an MOQ of 189,270 liters (50,000 Gallons US) or more.

Price per liter: 5.1.2b per Gallon US)

Price for an order over 946,350 liters (250,000 Gallons US)

Price per liter: 5.1.2b per Gallon US)
