Dank voor je email!

[5.1.2e] heeft [5.1.2e] gebeld en hij had zijn email nog niet gelezen.

[5.1.2e] had de indruk dat [5.1.2e] het wel waardeerde dat we hem op het juiste pad brachten. Hij heeft maar niet doorgevraagd waarom hij tot deze weg is gekomen.

Let's see. Website Caribisch NL heeft inmiddels ook een 2 artikeltje gemaakt op basis van de info die de persvoorlichters hebben aangeleverd. Info artikel is conform de beantwoording. Titel artikel is wat harder....

Dear 5.1.2e

We are looking for the following:

- 4000 masks type FFP2/N95 (Type FFP1 will also work if FFP2/N95 is not available)
- 2000 surgical masks
- 1200 cuffed longsleeved medical apron = cuffed long sleeved medical gown / mainly size, large, xl and xxl
- 500 full faced shields
- 600 safety glasses = safety goggles
- 300 Uvex auto-clavable glasses
- 6000 Gloves (2000) Medium / (2000) large / (2000) extra large, - 40 thermometers
- 40 digital thermometers

I know these are not big numbers, that is why the islands face difficulties. Since the two cases on St. Martin there is more dynamics about personal medical protection.

Let me please know what is possible and realistic.

If you have questions, please let me know.

Kind regards,

5.1.2e

Dear 5.1.2e

Hope you are having a good.

Do you need regular masks? If so, do you an approximate number?

We are checking with our supplier and for the moment we have 1.000 units, they're looking if they can get more units.

Please let me know your comments

Dear 5.1.2e

Thanks for this update!

I have question of a different notion, related to Covid-19 protection equipment (like medical masks etc).

We have some shortages in the Caribbean and looking for ways to purchase them. Do you have access to suppliers in Colombia or in your region, so that we can purchase some through your channels? If that is the case, please let us know and I will specify our needs.

Kind regards,

Onderwerp: ZVK's referrals through Coomeva

Dear 5.1.2e

Hope you have a great week.

As discussed on our past meeting on January, we are fully committed to improve our services as well as to continue with the ZVK's instruction on concentrating your insured on the 5 hospitals approved by you.

Below you will find the chart that shows the distribution of the referred patients during February through our network; as you may identify we do still have a few amount of patients that were sent to Bogotá & Cali, or to other institution with previous approval of ZVK. Those patients that went to a different hospital and/or city, was because they had always been treated by the same physician at that hospital since the first time that they came to Colombia for medical care. We are as well collecting all their medical history to send them next time to one of the hospitals within our delimited hospital network.

Brief summary on ZVK's insured distribution:

- * 94% (82 patients) went to Medellín: 93% (76 patients) went to the hospitals approved, 7% (6 patients) went to other hospital for follow up.
- * 6% (5 patients) Other cities (Bogotá & Cali)
