

Request for a phone call between the NL and CZ Ministers of Foreign Affairs regarding COVID-19 related medical equipment

Goal: Open political discussion on mutual assistance with regards to exercise preferential treatment to mutual supplies of certain medical equipment.

NL need – intensive care units and hospital beds

CZ need – intensive lung ventilators

The Czech health care system is in an urgent need for intensive lung ventilators. The Dutch producer Philips is one the world's biggest suppliers of these units. The Dutch health care system is in an urgent need for intensive care units and hospital beds, whereby the Czech Republic is the biggest European producer of such hospital equipment.
