Subject: Re: EpiPose output: Preprint and online report
Received: Tue 3/31/2020 8:54:29 AM

Hi [Redacted]
Regarding funding acknowledgement, please include for now:
This project has received funding from the European Union's Horizon 2020 research and innovation programme - project EpiPose (No 101003688).

Once the grant agreement number is available, we can refer to that instead of the project number.

Best regards,

[Redacted]

Dear all,
I just wanted to let you know about some output from our group that should be considered part of WP2:

- [Redacted] updated our preprint on CFR including data from Italy: <https://www.medrxiv.org/content/10.1101/2020.03.04.20031104v2>
- We have a real-time analysis of the epidemic in Switzerland published as an online report: <https://ispmbern.github.io/covid-19/swiss-epidemic-model/>

Apologies for not meeting the 24h pre-publication window during these busy times.

@ [Redacted] Have we agreed on a funding statement that will be used for publications?

Best,
[Redacted]
