Covid-19 - Medical and Protective Equipments

According to the Covid-19 pandemic and its worldwide diffusion, ZV has partnered with several companies manufacturing Medical & Protective Equipment for being able to supply the equipment you need in these difficult times.

1. Respiratory Mask (CE/FDA with FFP2 & FFP3 certifications),
2. Gloves – Medical Grade (CE/FDA)
3. Contactless Thermoter (CE/FDA)
4. SMS Disposable Protective Medical Suit (CE/FDA)
5. ICU Ventilator (CE/FDA) and its disposable parts

The company partnered are established brands as 3M, Honeywell and worldwide exporting manufacturers ensuring quality, available stock and certifications compliance.

We will handle the Express Delivery for you (DHL/Fedex/Similar), in a cost-effective way, so you are able to receive worldwide the goods needed within few days.

We are currently supplying these products to Healthcare providers and Retailers in Europe and USA.

Medical and Protective Equipments

Surgical Mask - EN 14683/ ASTM Level 1

A surgical mask is intended to be worn to catch the bacteria shed in liquid droplets and aerosols from the wearer's mouth and nose.

They are **not designed to protect the wearer from inhaling** airborne bacteria or virus particles **but to contain them.**

Starts at US\$ 1/pc (DDU) including the Express Delivery to Asia, Europe, USA & Canada. MOQ 25 000 pcs.

Respiratory Mask FFP2 - EN 149:2001/ NIOSH 95

A protective mask FFP (Filtering FacePiece) is a type of filtering respiratory mask that **serves mainly as protection against particles as well as against various communicable diseases in the air.**

Unlike the surgical mask, it **protects its wearer against inhalation of infectious agents or pollutants** such as fine particles and droplets.

Starts at US\$ 3/pc (DDU) including the Express Delivery to Asia, Europe, USA & Canada. MOQ 10 000 pcs.

Medical Disposable Glove - ISO 21171:2006/ASTM D6319

Medical gloves are **disposable gloves** used during medical examinations and procedures **to help prevent cross-contamination between caregivers and patients.**

There are two main types of medical gloves: examination and surgical. Surgical gloves have more precise sizing with a better precision and sensitivity and are made to a higher standard.

Examination Medical Glove starts at US\$ 29/100 pcs (DDU) including the Express Delivery to Asia, Europe, USA & Canada. MOQ 50 000 pcs.

Contactless Thermometer - CE/FDA

An infrared or contactless thermometer is a device

which infers temperature from a portion of the thermal radiation.

This permits temperature measurement from a distance without contact with the body or object to be measured.

It is useful for measuring temperature, **within 3 seconds and an accuracy of +/-0.2 Deg. Celsius, of a large population without cross contamination.**

Starts at US\$ 39/pc (DDU) including the Express Delivery to Asia, Europe, USA & Canada. MOQ 1000 pcs.

SMS Disposable Protective Medical Suit - CE/FDA

A SMS suit is a type of PPE, from head to feet, that serves mainly to protect the wearer against particles, light liquid splashes and hazardous dust containing various communicable diseases.

Specifically design with a **lightweight fabric** and storm flap over zipper adding an extra layer of protection, **it ensures body ventilation.**

Conformable and offering a better tear resistance, **it complies with the CE and FDA regulations.**

Starts at US\$ 25/pc (DDU) including the Express Delivery to Asia, Europe, USA & Canada. MOQ 1000 pcs.

Because Dedication is our Mindset, we will help you to find the right solution for Fighting Back Against Covid-19. Please Keep Safe and Stay Home.
