Ha [5.1.2e]

Bij deze! Is dit ongeveer wat je zoekt?

Groeten, [5.1.2e]

 De EUPHA (European Public Health Association) is een koepelorganisatie van volksgezondheidsorganisaties en instituten in Europa, met een jaarlijks wetenschappelijk congres. Dit wordt door veel RIVM'ers bezocht, hoofdzakelijk uit V&Z domein. Het advies is daarom om deze uitnodiging in dit domein verder uit te zetten.

Alvast super bedankt.

PUBLIC HEALTH FOR THE FUTURE OF HUMANITY: ANALYSIS, ADVOCACY AND ACTION

The theme of the Congress, *Public Health for the Future of Humanity: Analysis, Advocacy, and Action*, reflects our firm commitment that we, in the global public health community, have an obligation to respond to emerging global threats and challenges. We must hold to account those with the power to make a difference. We must act, making real our commitment to health in all policies. In a series of eight plenary sessions we will further explore these challenges and actions.

Revolutionizing the Public Health Workforce as Agents of Change

These professions can make an impact. Appropriate education and training in public health is key to make public health workforce an agent of change from community to government. Are these professionals aware and ready for this task? How should education and training in public health be updated and integrated in the different curricula? Which professions should be educated and how? What actions should be taken to build knowledge and capacity in public health horizontally? [Read more here.](#)
