Dose Limits

In case we presume that a dose is not achievable we will clearly report this to you. Synergy Health will do her utmost and use all her technical expertise to stay within the requested dose limits. However, because of variations in your product and our process, it is not possible to guarantee the maximum dose will never be exceeded. For this Synergy Health cannot accept any responsibility. At all times you will be informed by Synergy Health about any over dosing or under dosing. In case of under dosing we will offer you an additional treatment free of charge.

Insurance

At Synergy Health your product is insured against fire, theft and damage caused by the forks of our forklift trucks. All other damages are not assured. Synergy Health Ede B.V. will maximally pay the value of the irradiation treatment in case of damage (see our General Terms and Conditions of Treatment and Sale).
